- Gas Stove – Thermostat to the fireplace is near the staircase.
Do not place anything on top of the stove. Obvious I know, but it has happened.
- Baseboard Heaters: The gas stove does a good job of heating the cabin, with the exception of the back rooms on the first and second floors. For these two rooms, please use the provided space heaters, which are more efficient at heating, than the baseboard heaters.
- Towels / Extra Linens: In washer/ dryer room
- Garbage: Raccoons sometimes like to pay the cabin a visit, therefore it is recommended that you either keep trash in the house or take directly to the dumpster to avoid an overnight visit from these mammals.
- Snowline does recycle. **Purple key** is required to operate dumpster and enter recycling center. Please place paper, bottles and cans and put in bin located outside the cabin front door. For all other garbage place in trash can located outside from door of cabin. Dumpster and Recycling center are located near gates at the entrance of Snowline.
- Entrance to Snowline: Use either one of the two provided gate keys or scroll to “Anesini” and press the call button. This will ring the telephone at the cabin. The gate can be opened by pressing “9” on the cabin phone. (Assumes someone is in the cabin. 😊)
